Education

Birla Vishwakarma Mahavidyalaya (BVM), Anand

B.Tech – Computer Engineering (1st Year) | Expected: 2030

Technical Skills

- **Languages:** C, C++
- **Core:** Data Structures & Algorithms, Object-Oriented Programming (OOP)
- **Tools & Technologies:** Git, GitHub, VS Code

Projects

Najmi Herbs – E-commerce Platform

A full-stack e-commerce web app for herbal and natural products with secure authentication, cart and order management.

Live: <https://najmiherbal.netlify.app>

NeuroReply – AI Chat Emotion Analyzer & Smart Reply

An intelligent AI tool that analyzes chat messages, detects emotions and suggests the perfect reply using context and intent understanding.

Live: <https://neuroreply.netlify.app>

Aethelas Research – Fintech & Stock Insights Platform

A platform to track real stock prices and generate quant signals for better investment decisions.

Live: <https://aethelas.netlify.app>

Achievements / Activities

- Solved **100+** LeetCode problems (Easy to Hard).
- Active participant in coding contests and tech communities.

Key Strengths

- Strong problem-solving and logical thinking
- Quick learner and adaptable
- Clean and efficient code
- Passion for building real-world solutions
- Strong foundation in computer engineering
- Team player with a growth mindset
